I've learned to speak and read Spanish pretty well, but understanding it at a normal conversational pace remains difficult. This film series allows me to learn the dialog with subtitles in Spanish, and then switch off the subtitles when I understand what is being said.

So to counter the other review on this book, if you simply take the time to google or search via YouTube you should have no problem finding all the videos. The book is simple and easy to use and the disc provides the videos that correspond with each chapter or section. I used this for a Spanish Conversation and Diction class and enjoyed the lessons in this book. Overall a well made book/workbook.

Would've been more useful if there was DVD so i could actually use the book. You should consider

it and put it in...
