Customer Reviews

My daughter checked out this book from the library. She is 14 years old. She got the book for her little brother to read and study about Israel. She was telling me about the book but said she thinks her brother should skip a page in the first chapter. I asked her why and she said she didn't feel what was stated in this book was right but couldn't express it. I asked her to show me what she read: "Despite the differences among Israel's peoples, they share the common experience of building the nation. Regardless of their political leanings or religious beliefs, there is a kinship among them that will perhaps heal the wounds of old. Until then, Israel must remain a place of optimism and tolerance." I wouldn't have used the word "tolerance" and state what Israel "must do". Writers must be careful especially when writing for kids to not seem to have an agenda and then label it as "facts". The back of this book states "an invaluable resource for facts", but instead of facts (like it

states on the back of the book) it looks as if it is full of opinions. I couldn't tell you about the rest of the book because I didn't read it past the first chapter and we are returning it to the library. I would not let my children read this book and it is supposed to be for children. I am glad my daughter talked to me about it and I listened. It may be fine for others but not for us. Thank you.
