Animals And The Afterlife

"Kim Sheridan has the ability to open minds and touch hearts. Presented in an intelligent and down-to-earth manner, this book will surely touch the lives of animal lovers everywhere."

— Jack Canfield, co-author of *Chicken Soup for the Pet Lover's Soul*

ANIMALS AND THE AFTERLIFE

TRUE STORIES OF OUR BEST FRIENDS'
JOURNEY BEYOND DEATH

"...A MUST-READ MASTERPIECE!"
— Celebrity Newsmagazine

KIM SHERIDAN

Synopsis

Kim Sheridan grew up with animals as her constant companions. Each time she faced the death of a beloved pet, along with the pain came the same questions, to which she could find no answers. Then, mysterious things began to happen that she couldn't explain, which led her on an incredible journey to uncover the truth. Along with her own extraordinary experiences, she compiled heartwarming and meaningful true stories of everyday people around the world, and discovered compelling evidence that forever erased her own doubts about an afterlife for animals. This book provides enormous comfort and reassurance to anyone who has ever cherished a pet, and food for thought for anyone who has ever questioned the place of these beloved creatures in the larger scheme of things, both here on Earth and beyond.

Customer Reviews

One of the best books I've read. For everyone who's ever lost a loved pet, this is just part of the book, but to me, I had not only just lost a loved cat named Reno, but the book helped me through it. Reno stayed long after he passed. letting me know he was still around. you just need to listen and

be aware.....and be comforted. Everyone is as different as their own beliefs, these are just mine.

Animal communicators are fascinating. Compassionate people have a rough time in this world, this reminded me I am not the only one who struggles. I found her story interesting. I have been an animal guardian my whole life and have used several animal communicators. They are absolutely indispensable at times especially when the pet is sick and you don't know what he or she needs. This book is worth reading for any animal guardian.

I just lost my beloved cat Romeo at only 5 years old. He died in his sleep, and wasn't sick at all. It was such a shock to find him gone. He had the most big beautiful blue eyes! This book has helped me so much in accepting his death, and know he is with me and I will see him and all my pets that I have lost in heaven. Thank you Kim Sheridan for writing this wonderful book!! You give us all hope!!

This book is a GREAT READ, period. So tender and full of beauty -- so filled with compassion -- so full of resources for those seeking an animal communicator, so full of heartwarming stories, I simply could NOT put it down! I cried and laughed my way through the tender bits and the losses, but ultimately this is a book brimming with sheer joy. I wasn't sure if animals had an afterlife before I read this book (but have always said if animals don't get to go to heaven, I don't want to go either). Now, I know I will see my beloved friends again someday and pay a great deal more attention to the little things that have probably signaled their presence all along. Lots of love to you, Kim, for this beautiful book. Love to June, too!

I originally ordered the first version of this book (published 2003? 2009?) after the painful death of my 12-year old dog Katie, who had diabetes and kidney failure. The book comforted me as I struggled through the grief process. The pain was still intense but I could cope. I am hoping the updated version will have new stories and I highly recommend it in ANY version to the grieving pet owner. There are stories about dogs, cats, and rats. Maybe other pets too, I don't remember. After reading about the wonderful rats Kim loved, my husband and I found an abandoned domestic rat in a park and rescued him. Templeton just passed away - I am so sad. I need this book again, but I gave away all my copies to suffering friends when their pets passed...now the first version seems to be out of print. The only copy I saw cost over \$100! If you are coping with the loss of your baby; your best friend and animal companion, then while you are waiting for this book or any others you think

will help, go straight to Kim's website and get some help immediately.

-

After these stories no one can look at an animal in the same way again. Even those of us who thought we knew our pets. They have their existence beyond this world just as we do. Very moving.

I would STRONGLY recommend this book to anybody who suffers (or has suffered) grief over having lost a pet. Of all the books that I have read on the subject, this is by far the best. It is full of valuable information. Chapters deal with such subjects as how to deal with grief, how our deceased pets try to contact us, etc., etc. We know that animals do go to Heaven, if we have studied the near-death experiences of humans (as I have done for many years), since many of those experiencers have reported being met by their pets as well as seeing other animals while having their near-death experience. This book helps us clarify that knowledge while giving us a tremendous amount of additional information regarding the subject. Again, I would urge anybody suffering grief over the loss of a pet, anybody having a friend suffering such grief, and/or anybody who loves animals to read this book.

This book doesn't need another gushing review, but I'm going to write one anyway. I bought this book a couple weeks after losing Ella, my beloved Maine Coon of 8 1/2 years, to a high grade sarcoma in her gums. Kim's book was a tremendous help in giving me peace about some feelings of guilt I had about the day of Ella's death. I was in tears reading about the relationship between Kim & her beloved pet rat June, because it was so similar to the relationship I had with Ella. It's a great comfort to me to know that our animal companions are still with us in spirit after death, and that we will be reunited with them in the afterlife. Being a vegetarian, I also applaud Kim's efforts to make people aware that cows, pigs & chickens have feelings & fear being killed to be eaten because they, too, want to live. Everyone who has loved & lost a pet, whether they currently have a pet or not, needs to read this book! I also recommend it if you love animals & are just curious about this subject. I'm going to buy a copy of this book for my sister for Christmas, because she asked the priest of the church she belongs to about this very subject after having to have one of her beloved cats put to sleep.
