highly recommend

This book served it's purpose for a sixth grader who lost his school copy. It was a good price, as well.

Great for my child's school use.

I purchased this book for a student, so I do not have a review.

Decent condition and good replacement for the lost school book :)

I received wrong edition of the book. And I emailed the seller for return but the seller did not reply to me for long time(He replied to me after almost 3weeks). So I contacted e directly and got refund only the book fee except shipping fee.I returned the book to the seller by ups ground shipping(almost \$9).The seller did not give me any feedback he got back the book or not. This is the worst experience with e.

I ordered and paid for a used book, but was sent a brand new book. Apparently they did not have the used edition, but upgraded my purchase for free.

A good book - given as a gift to someone who really wanted this one.
