Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

I think this map of Madrid is great. It has maps of Madrid and the surrounding roughly 25 miles of roads, towns etc, a map showing Madrid's location in central Spain, a larger map showing central Madrid with attractions, roads etc in a no-squint size and on the other side is a map showing more of the Northern and Southern reaches of the city, also easy to read. There is a nice map of the metro, very nice description of points of interest, a legend and a location index. I bought a Streetwise Madrid map before this and although it does have the advantage of being half as large and thicker material, the graphics make it much tougher to find what you are looking for.

This is an excellent map of Madrid. Easy to carry yet detailed enough to be useful and not easily ripped which served us well. Highly recommended!

It was super useful. Very detailed, easy to use/see and durable. Highly recommend.

Durable, practical, light weight

It is a good map but comparing it to the other one I ordered on Barcelona, this map did not rate nearly as well. I was sorry about that.

Print too small, significant landmarks not on map. Barclay arena nowhere to be found.
