Customer Reviews

I am a big fan of Turkish food. Love the different spices and flavours that make it so delicious. Its such a variety of different recipes and cultures. The 25 recipes on here are all varied but taste amazing. The classic turkish fish soup was the first recipe I tried and it tasted great! My next recipe is the zesty garlic chicken wings which I cannot wait to try making, I love chicken wings and garlic. The instructions and ingredients in this book are easy to find and use which makes it great as a cookbook.

This is a great book on Creative combination of flavors in Turkish. All of the things, tips and recipes that I need to know are already included and well written inside. Ryan Hart has done an incredible awesome job in compiling and creating this book. All 25 recipes are very healthy, useful and easy to prepare. This book is really a great resource for those who want to learn more about Creative combination of flavors in Turkish.

Turkish cuisine is by far one of my favorite ones when it comes to restaurants and takeouts. So I

wanted to throw a Turkish party and needed a good cookbook. This one turned out to be pretty excellent. I made some of the recipes and hubby liked kebab while kids fell in love with Turkish rice pudding. So I will definitely keep this one in my collection.

A very nicely written book on Turkish foods. The recipes in here are actually very delicious and healthy too. The author does a great job of listing the recipes into an easy to digest format. Well done. I'd definitely make some of these at a gathering next time.

This book contains a great collection of recipes for Turkish dishes. I have skimmed through the book and dishes sound delicious. My wife is Turkish and I go this book to cook something for her. I can certainly recommend this book.

Looking for something new? This book on Turkish cuisines offers you delicious and healthy recipes. Breakfast, soup, appetisers, salads, meat, desserts and more! Well written and beautiful illustrated. Recommended.

I love Turkish cuisine and suddenly I find this book and believe me the test we get using the methods of this book is amazing.
