Customer Reviews

I am giving this book 5 stars because I think it does an excellent job covering the city of Amsterdam. The illustrations are fantastic, the tips are helpful, all of the major points of interest are covered (and then some) and it is up-to-date. I'm a big fan of the Eyewitness travel guides, and this book certainly won't come as a disappointment to those who are familiar with their books. However, be warned that this book isn't much more than a subset of "Eyewitness Holland". If you already own their book on Holland, you don't need this because everything that's included in this book is in the Holland book. The pages may be mixed up a bit, but don't be fooled - I went through both books side-by-side and it's pretty much identical. Unless you plan on staying exclusively in Amsterdam (why?), I would suggest going with the 'Holland' book for a few bucks more. But whatever you do, don't buy both as I did!

This book offers worthwhile information to a range of different readers. The first pages, "Four great days," offer itineraries for art lovers, shopping fans, history buffs, or families with kids to please. I don't think anyone will stop there, but I imagine many readers starting with those day-trips and filling in the edges. The rest of the book presents the city in lush photography, legible maps, and clearly

organized descriptions. The part of the book (about two thirds) divides Amsterdam into seven geographical districts. For each, the reader gets a bit of history and general layout, followed by detailed descriptions of many attractions. The remainder of the book talks about out-of-town points of interest and general information about food, culture, and other helpful travel information. I'm going to Amsterdam soon on business, and have just a little time to enjoy this amazing city. This guide has been very helpful in planning those scraps of free time. Maybe this book won't meet every traveler's needs, but it meets mine.-- wiredweird

My husband and I went on a guided tour of Amsterdam, Bruges, Brussels and Paris- in 5 days so this book was perfect! I carried it everywhere and we could learn more about the highlights we were seeing or if we had a few hours to our selves then we knew what to do! Not sure I would recommend if you had more time but for us they were perfect!

Exactly what I ordered It covers everything you can think of I use this brand whenever I go to another country I bring it with me . I reference it on trains and while traveling its great a private tour guide and know it for the area it says.

DK Eyewitness Travel Guides are my favorite. I have them for many cities and countries.

The book was beautiful, and the people I dealt with were exceptional.

These travel guides are my favourites. I never use any other guide for travelling. The content, layout, maps, and descriptions are always spot-on and make the build up to a trip almost as exciting as the travel itself.

Great photos of the places you see in person but can't have access to take the picture. There is a series so you can have many cities and countries in your collection. I'm looking forward to trying the ebooks to see how they compare.
