Capture the Beauty of Nature with Fire Whether it's the majesty of a buck, the cheekiness of a raccoon, or the peaceful stillness of a loon, the appeal of wildlife is universal. If you're a woodburning artist with a love of nature and animals, Pyrography Patterns will make it easy for you to create vibrant and attractive wildlife images. Award-winning pyrography artist Sue Walters offers 30 dynamic North American wildlife patterns and 10 original border designs to use in woodburning projects. These engaging animal subjects-including geese, eagles, bear, deer, wolves, foxes, owls, chipmunks, cougars, and more-are presented in harmonious natural settings. Large ready-to-use designs are provided in both line and tonal patterns. Amazingly detailed tones are shown directly over each line drawing, to guide you in darkening your picture with ultra-realistic, lifelike effects. The

Her previous pyrography books have been Fox Chapel best-sellers, with sales of Pyrography Workbook over 50,000 copies.

Beautiful pictures. There's a lot of information. My hubby is fairly new to wood burning, but he felt this book was easy to follow. Detailed illustrations showing different techniques. Great book, reasonably priced.

This is a great starter book, I had bought this for my husband, he had just started doing wood projects. It gives me details and ideas and how to go about getting started. It had arrived right on time with no issues, and I would recommend this to many. Very happy with product and price as well.

Good patterns to start with so you can make your own modifications, and some really good suggestions.

I have NO ARTISTIC ABILITY, but this book had me making pyrographic projects like a pro.. heads up.. go ahead and order carbon paper at the same time. (you will want to get started right away)

Very nice patterns. Great book for what it is. Well presented. Lots of good advice from, in my opinion, the best pyrographer out there. If you like burning wildlife this is for you.

Sue's work is amazing. Very fun patterns to attempt. But I'd suggest for those entering pyrography,

don't hesitate to buy a Colwood or Razer. It is worth having the control of temp and brush.

Item was what I wanted. Thanks.

Helpful book.
