Spelling errors or Typos (if any) have been corrected as per standards. About â€œComplete Worksâ€• by 'Edgar Allan Poe' *The works of American author Edgar Allan Poe (January 19, 1809 â€œ October 7, 1849) include many poems, short stories, and one novel. His fiction spans multiple genres, including horror fiction, adventure, science fiction, and detective fiction, a genre he is credited with inventing. These works are generally considered part of the Dark romanticism movement, a literary reaction to Transcendentalism. Poe's writing reflects his literary theories: he disagreed with didacticism and allegory. Meaning in literature, he said in his criticism, should be an undercurrent just beneath the surface; works whose meanings are too obvious cease to be art. Poe pursued originality in his works, and disliked proverbs. He often included elements of popular pseudosciences such as phrenology and physiognomy. His most recurring themes deal with questions of death, including its physical signs, the effects of decomposition, concerns of premature burial, the reanimation of the dead, and mourning. Though known as a masterly practitioner of Gothic fiction, Poe did not invent the genre; he was following a long-standing popular tradition.* - This content has been taken from GoodReads.com."

Customer Reviews

I read a lot of reviews before buying the paperback version. The copy I received did include a bunch of tales and all of the popular ones from what I can tell. All the poems are in there. There is a table of contents with page numbers. The title of the tale is on the top of the right page, for reference. I did not find issue with the size of the print. In short, there is nothing wrong with the format. Tales and essays first followed by poems. I'm finding that I'm not a huge fan of this writing style, but who am I to judge one of the greatest authors of all time. It's a great price to find out for yourself.

I feel rather cheated. Despite the title and boastful description on this particular format, not a single tale is included. The formatting is no different than if it was merely a paper copy of a webpage, with what seem to have been hyperlinks to the notes and table of contents. I ordered the paperback, which is pictured here on , and expected a complete collection; instead, I only got his poetry and a few works of prose, without any short stories or "The Narrative of Arthur Gordon Pym of Nantucket". If you order, I caution you not to order the paperback version, as it appears to be the only one with this problem judging by reviews.

My daughter loves her Kindle, but sometimes she likes the feel and weight of a book between her fingertips. She is now into Edgar Allan Poe works and while I could have paid about 10% of the price via kindle, it was worth the extra \$\$ to see her smile. This book is HUGE but it hasn't stopped her from lugging it around to school everyday. She got so excited receiving this book, that she cried with joy! For those of you that enjoy Poe's works, this should become a main staple to your library. Thank you for always having the best prices and service - bar none. Edgar Allan Poe: Complete Tales and Poems

The book is very large, and the cover looked exactly as pictured. It has a dust sleeve and the actual

binding of the book is black with gold lettering. The print is a little small for my liking but that's okay, it is still a great collection. If you are ordering for an older person you should maybe reconsider because the print is a little small and may be harder for them. But it is a great book! A++ and it was shipped extremely fast!

It's thick, like an encyclopedia, but it contains many stories. It starts off with a pretty good introduction that describes Edgar Allan Poe in an analytical and entertaining manner. It talks about his life, love, and sanity, among other things. Then there are 73 stories to read including Poe's greatest stories like "The Tell-tale Heart," "A Descent into the Maelstrom," "A Black Cat," "The Cask of Amontillado," "The Pit and the Pendulum," "The Masque of the Red Death," "The Fall of the House of Usher," and "The Gold-bug." Unfortunately, the book also contains some of his most mundane and boring tales, but if you want to go deep into the mind of the Author this is the book for you. Now if 73 stories weren't enough, the book also comes with 49 poems, which includes "The Raven" of course. With this much material you can guarantee that you will have something to read for a many nights.

A great collection of Poe's works. It's like a bible of dark and eloquent story telling. Definitely for any fan of Poe. Best of all, it's digital so you can have it anywhere you want (phone, tablet, or kindle)

I love the dark stories from Poe and they are perfect for a short read while most are short in length. Also the Poems are different as well but just right to make you think before you go off to bed.

Firstly, I'd like to state that asking one to answer questions about a book's plot and characters before it has even been read is rather ridiculous in order to be able to write a review!! I only just received this in the mail today and I ordered it as a gift!! This being said, I wanted to write a review to state that the book seems to be in excellent condition and arrived early. This seems to be a wonderful adaptation of Poe's work. The only reason I'm giving it four stars instead of five is to let others know the print is indeed quite small so actually reading it could prove difficult. However, to the collector, especially of classic literature, it appears to be a beautiful volume indeed. I feel it's going to make an excellent Christmas gift!!
