Customer Reviews

Simply as good as it gets. Aging a little but would not be down here without it. All of Calder's books are first class and worth at least what they cost. There is no substitute for perfection. We also have the guide by Freya Rauscher which is just as good in a different way, they complement each other, both are essential along this coast.

fine

Used this book extensively when we cruised the Caribbean and never had a reason to criticize any information. Entry and exit instructions were explicit and correct. We did exactly as he recommended and had no problems. Direction for sailing from Cuba to Mexico were right on and tips about sailing down the Mexican coast were helpful. Belize info was great as was the info about Guatemala!

This publication is extremely over priced. There are many available that are equal to and some case far superior to this guide.
