Customer Reviews

Wasn't sure if I would be all that engrossed in the subject matter but was pleasantly surprised and impressed by the numerous photos and candid descriptions of ancient Buddhist pilgrimage sites. Not only did I learn something about the man but it's made me darn curious to seek out even more information because of the tributes created in his honor which are a sight to behold. I can't say much more other than it being a very good book of which I appreciate having been able to read!
