Customer Reviews

Since the 1973 publication of Storey's first Country Wisdom Bulletin, our commitment to preserving the arts, crafts, and skills of country life has never wavered. We now have more than 200 titles in this series of 32-page publications, and their remarkable popularity reflects the common desire of country and city dwellers alike to cultivate personal independence in everyday life. Storey's Country Wisdom Bulletins contain practical, hands-on instructions designed to help you master dozens of country living skills quickly and easily. From traditional skills to the newest techniques, Storey's Bulletins provide a foundation of earth-friendly information for the way you want to live today.

Barbara Pleasant has been covering organic gardening and self-sufficient living for more than 30 years. A contributing editor to Mother Earth News, Pleasant has garnered multiple awards from the Garden Writers Association and the American Nursery and Landscape Association. She has written books on topics ranging from compost to weeds, including Homegrown Pantry, Starter Vegetable Gardens, The Complete Compost Gardening Guide (with Deborah L. Martin), The Complete

Houseplant Survival Manual, The Gardener's Bug Book, The Gardener's Weed Book, The Gardener's Guide to Plant Diseases, and Garden Stone. Her columns and articles appear regularly in Mother Earth Living magazine and at GrowVeg.com and on other informational websites. Pleasant lives in Virginia, where she grows vegetables, herbs, and fruits along with a few chickens, who all have names. Â

Handy guide to doing it right in your garden. Good information to set you on the right path to a viable herb garden. No regrets, I do recommend growing your own veggies and herbs, to avoid GMOs (Genetically Modified Organisms) which are bad for our health! Grow organic and be healthier!

i have been, like most who would read this, been dealing with weeds for years. This pamphlet reinforced what i have been doing and provided great suggestions for other control methods. I appreciated the logical presentation and down-to-earth advice.

Since this isn't that kind of publication, I suppose expecting color is too much to demand. I do want to try "foraging" so I don't want to kill the edible weeds, so pictures would be nice. Not that critical, because this is not a comprehensive discussion of weeds. The author puts a lot of info (for me, anyway) into this little book, and I know I'll find it useful.

lots of good knowledge

We did not pay very much for this book but it's well worth the money. I purchased this one because I somehow lost my original one that I bought back in the 80's I like to keep books like these because over the years I tend to forget some of the things I've read in them. It's nice to be able to go back and refresh your memory. I think I may have actually lost my original when I sent a bunch of unused books to the Salvation Army. You may need to adapt the tips in this book to your own circumstances. Myself I tend to use my Troy Bilt tiller wherever I can to control garden weeds but it can't get all of them. I use it every 10 days during the growing season to till up those that have just started and expose the seeds just under the surface to sunlight. By doing this I kill the weeds before they get a chance to reproduce. I don't believe there is a 100% foolproof way to control weeds.

This book is helping me to get rid of the weeds in my garden for good. Storey writes some great guides and this is another hit! I would recommend this to anyone who likes to garden and work in the flowerbeds.

lets face it, weeds suck. I have another quick reference guide on how to deal with Texas weeds.
