Customer Reviews

Really well written book. Good advise. Especially for the overly endowed, such as myself.

This is the best book written on the subject. It works! It is an amazingly easy read and simple but dramatic results.

I bought this book at a mall on a whim before ever having an email account. How does one know to ask me for a review on it? We're all screwed, folks. Our government and companies like us are not our friends. As for the book, it works as described. Worth the purchase.

Excellent book. Encourages a loving relationship between two partners that are in Love, not just a

sexual relationship guidebook.

I think the stars say it all !!!

This book is so expensive. and you can find the contents in this book if you search for 1 hour in internet. don't penetrate hardly and massage nipples gently before intercourse. These are all about this book.

This is a quick and easy read. But don't let that fool you ... this book is chock full of great informative facts and logic on how a man can satisfy a woman in bed. Totally engrossing, a joy to read!

It's a very informational book. A bit out dated, but something that every guy should read. Even these girls now days.
