I am greatly enjoying this little book! I tried the adult coloring books awhile ago, when they started becoming popular, but I never really got into them. A friend of mine found a display at HPB of adult dot-to-dot books, and I started browsing immediately. So much more fun to me than coloring books!

It's both more and less detailed, it seems. And I can really stop at absolutely any point in time and just come back to the dot I was on when I left, which is excellent. The pictures so far have been relatively basic, but I'm slowly becoming a little more 'artistic' with my drawing, so it's lots of fun.

Great gift for my teenage grandchildren, they love complicated dot to dot and now combine this with coloring WOW best of both. Can't wait to see how much they are going to like the present. I think these are great. Very happy with the purchase.

Bought this for my 88 year old mother. She likes it.

My gifted students love these extreme dot-to-dots!

A little simplistic.

My daughter was so excited for this and completed the whole thing very quickly!

Very different, but am pleased
