Synopsis

For over fourteen years, as a pioneering crewmember of the Surf Lifesaving Association rescue helicopter, and then co-founder of CareFlight's sophisticated operations, Ken had an integral role in breathtaking, life or death rescues. This book describes these missions in intricate detail, as well as the frustrations and triumphs of making his dream of rescue and retrieval medicine a reality.

Customer Reviews

Dr. Wishaw gives the reader an interesting view into aeromedicine through his work in Australia. While this book includes many adventures utilizing helicopters, its focus is more on the medical side and less on the aviation aspects. A reader looking for a pilot's view will be disappointed. A reader looking for medical situations where helicopters and airplanes are used as valuable tools to save lives will be delighted. I do recommend it for flight crews as Dr. Wishaw's experiences are easy to learn from.

This is a story, that in so many ways, is of 'a life that is being well lived'. The sacrifices that Ken Wishaw and his family have made contributed in such a large way to our communties and are very

much appreciated. This is a well written and compelling story. Enjoy!
