I've eaten at the original by CHLOE restaurant in NYC several times, and one of the things I like

best is that she makes "normal" food vegan and she does it well. I've had some truly awful vegan foods, but everything I've tried either at her restaurant or in her cookbooks has been fantastic - the kind of stuff you can surprise meat eaters with. I only wish she had more restaurant locations and cookbooks to enjoy. Note that this particular ebook is a mini book with just 10 recipes, all of which appear elsewhere in her longer books. I didn't realize that in advance, and I already own the other books. However, at 99 cents that goes towards a great author and chef, I don't even really care.

I'm a fan and glad she's successful! A great little book to have in your stash!

Good recipes, but all are included in her hard cover book. Unless you need a digital copy forego the e-book and purchase Chloe's Kitchen to get all of these recipes and many more in other categories.

Anything by Chloe is always awesome !!

Chloe is an excellent source of vegan recipes. She has superior training in plant based nutrition. Her cookbooks offer many choices and they taste awesome.

pretty basic stuff, nothing special. i have seen similar recipes many times and was hoping for more from Chloe

I have heard of Chloe and wanted to try a couple of her recipes without spending a lot until i determined whether or not i liked her cooking style.....i made a couple of the recipes, and while edible, they were nothing special...not bad, just not great
