Customer Reviews

Clear accurate tab and notation of some of U2's most famous songs. Wish there were more extensive collection of hits though.

I started playing bass late in life. I played trombone (bass clef) in high school, but that was many eons ago. I've been using these 'bass tabs' as they are an easy way of playing the songs I love with instant gratification. I may decide to learn to read music again, but for righth now I can play popular songs easily without music lessons.

Love the CD with the book. Great selection of songs

Really fun to have this for playing bass with to learn the songs you've known and love.
