Lonely Planet The Gambia And Senegal

Synopsis

Senegal is home to two of the three Club Meds located south of the Sahara, but there is also a network of low budget guesthouses available. In this guide there is a birdlife guide, comprehensive coverage of national parks and wildlife reserves, and the low-down on beaches and watersports.

Best Sellers Rank: #3,056,371 in Books (See Top 100 in Books) #34 in [Books > Travel > Africa > Gambia & Senegal](#) #2368 in [Books > Travel > Africa > General](#)

Customer Reviews

Wonderful overview of these two west African countries. I am novice traveler to this continent and very much geographically challenged. Book referenced several other interesting books to read.

In many cases, the coverage offered by Lonely Planet guidebooks may be hampered by the magnitude of the region they try and cover. This is why for example, in "Lonely Planet West Africa" (a bulky book which also covers Senegal and the Gambia), coverage of each single country is brief and not always perfect, and the reader is often lost among facts and information she or he does not need. Instead, in this much smaller and far more condensed guidebook, the author and editors have managed to put as much information and data as possible into it, about Senegal and the tiny Gambia. Coverage of both countries is excellent, providing up-to-date, accurate information and sensible advice, on anything from places to stay and eat, things to do and see, things to buy, and basically anything the traveller may wish to know. The coverage on culture, society, arts, music, and other information, is also excellent and wide, written in great prose and style. This is probably one of the best Lonely Planet guidebooks I have come across, and I would strongly recommend it to anyone travelling to those two countries. It will be an extremely useful tool, and will also provide great reading about the places being visited.

I had to do a project on Senegal. And this book helped me a lot, even though I'd like most of the information to be on Senegal instead of Gambia. The book will really help you if you are a traveller going to one of the countries. The part about pickpockets was very interesting as it tells me about the best way to be robbed in Senegal. Overall, this book covers everything, from local slangs to foods eaten. It deserves a four star!
