The True Story Of The Bilderberg Group

Synopsis

Delving into a world once shrouded in mystery, this investigative report provides a fascinating account of the annual meetings of the world's most powerful people, The Bilderberg Group. Since first meeting in 1954 at the Bilderberg Hotel in the Netherlands, The Bilderberg Group has been comprised of prime ministers, presidents, and the wealthiest CEOs of the world, all deliberating the economic and political future of humanity. The press has never attended these meetings, which have ramifications on the citizens of the world. Using methods that resemble the spy tactics of the Cold War - and in several instances putting his own life on the line - the author managed to learn what was being said and has made it public for the first time.

Customer Reviews

Informative and interesting. Talks about how the Bilderberg Group is represented by the elites of the world. Sounds to me like they pretty much want a one world government. I think there's something even in the bible about this. You'll have to check. I finished it in 2-3 days. Highly recommend.

For those of you who do not believe this is real, you can look into it yourselves. Others have also written on the many groups mentioned in this book. Even though there is more I think the author was pretty thorough. The Flexner Report of 1910 would also fit along with the subject matter. Its basically a very well planned takeover by some very wealthy and powerful people and it doesn't matter what the masses want. They can do this and break laws in the process but will have no trouble from it. That gives me sort of an angry and powerless feeling, I am not a one world

government enthusiast. I guess some cannot have contentment being wealthy.

Interesting but a bit boring in parts. Worthwhile read for anyone interested in the subject. Eye opening.

What a book!!! Everyone should read it!!!!
