Tiny Titans Vol. 1: Welcome To The Treehouse

Synopsis

You'll see what life is like for the very young heroes of Sidekick Elementary and learn what could go wrong when the kids of Sidekick Elementary spend an afternoon in the Batcave in this new graphic novel. These all ages tales from the DC Universe, beautifully written and illustrated by Art Baltazar and Franco, will entertain new readers and seasoned fans of comics.

Age Range: 7 - 10 years

Grade Level: 2 - 5

Customer Reviews

Mainstays of comic books since the 1960s, and stars of two generations of cartoons, the Teen Titans are morphed into Tot Titans for a series aimed at younger audiences. Adventures that include a new principal, getting a new dog, babysitting younger siblings, and fighting for one's spot in the playground are told in gag vignettes, most lasting 2-3 pages. The art is pleasantly funky, filled with motion and lively color, but the book as a whole proves a difficult example of audience selection. An in-depth knowledge of current Teen Titans continuity is necessary to distinguish between the massive cast of characters and to understand the relationships between them that many of the punch lines rely on; and references to such obscure touchstones as the movie Fight Club would make this a somewhat bizarre choice for most young readers. For large collections, this would be a good offering for young fans of the Teen Titans

cartoon or those readers who are super-hero crazy, but too young for DC's Adventures titles. Includes games and posters. Preschool-Grade 2. --Jesse Karp

I always keep a couple copies of Tiny Titans in the house to give away as birthday presents. I also did a presentation for my daughter's class about comic books and brought this along (as well as several other volumes) and the kids loved them. They were already familiar with the Teen Titans on TV, and were excited to see that they were in this book. It's a great way to get in some reading minutes, but have fun doing so. Art Baltazar's (and Franco's) art and story are whimsical and fun, and it's a great first comic book for kids. I've been following Art and Franco's stuff since the Patrick the Wolf Boy days and couldn't be happier that these books have been so successful for them.

My 6 year old girl loves it. It was a great way to open the door to reading more. I think she might have thought reading was just some boring thing she had to do for school, but she brings this comic book in the car and in and around the house. She's now just reading stuff we have at the house (the "readers") for fun. We tried other comic books, but the humor was too adult. Now, I've got to read up on super heroes (not a bad thing). I'm getting asked questions like, "Who is Beast Boy's mommy?" LOL. Too fun.

My 6-year-old loves Art Baltazar's work (and we love it for him). We've purchased all of his Action Cat, Tiny Titans, and Super Powers books, as well as The Mask. The illustrations are really well done and the writing is humorous. Our son is in first grade, and is at about a level 3 reading level. These books are written at a higher level (not sure what that would be), so we help him with some of the words. He's so engaged and enjoys reading them so much however that he has real incentive to sound out most words that he doesn't know on his own.

Kid tested, 5 and 7 year old approved.

My 6 year old LOVES this book! I purchased it bc the kids love to read, and we are a comic book kind of family as well, but I wanted my little one to get into reading like the rest of us. I picked this one because he loves Teen Titans and thought he might like this one bc they were based around the same age as him. I got this package yesterday, and he read it in ONE NIGHT!!! My SIX year old!! This humorous book makes my whole heart smile and I will be collecting this series for him now! I am one happy mamma!!!

Bought as gift, arrived bent up and not gift appropriate.

This was purchased for my six year old son who really likes super hero comic books. My 12 year old daughter loved it, she thought it was very funny. My son liked it a lot too. I liked that the the super heroes are kids. I've been searching for a while for a comic that was appropriate for a child. I had ordered a subscription to Marvel Adventures, which was advertised to be for ages was 6 to 12, but I hated the trashy way women were potrayed in the drawings. I was very happy to find these books. Gee, comics appropriate for children....what a novel idea. :)

I bought this comic as a birthday present for my 10-year old nephew so I'm well aware I'm not the intended target audience. Nonetheless, I thought the artwork was cute so I took a crack at reading it before I wrapped it up. The premises is about the sidekicks of DC superheroes as little children. I'm not very familiar with DC's lineup so there are a lot of jokes I probably missed not knowing a lot about the characters. And some of the jokes are, well...not that sophisticated. Still, it's target audience is probably preteens and younger and I think my preteen nephews have pretty basic humor so I imagine its target audience would probably find the jokes hilarious. The comic comprises of little stories, most of which don't really link up to each other. But I imagine that's fine since I doubt little kids are ready for major story-arcs. Each story is only about 2-4 pages long so I imagine it's great for kids with no attention span. The artwork, again, is very cute and it's a nice introduction to comic book for young children. The pages are flimsier than most comic books intended for adults. But the colors are vibrant and the binding looks nice. I'll have to check with my nephew to see what he thinks of it the next time I see him.
