This is a great book on Wheat Belly Flat Abs. All of the things and tips that I need to know about Burn the Wheat & Burn the Pounds are already included and well written inside. Diana Watson has done a good job in compiling and creating this book. Also the unique part of this book is the compilations of the Ã¢Â œTips on how to eliminate wheat, and encourage weight lossÃ¢Â •. I learned so much. I took Wheat out of my diet for a few weeks and when I ate it again, I immediately cramped up. The subject is well explained and interesting enough to keep listening. The subject is vital to everyone's health. It's not just about gluten anymore.

Informative with a lot of recipes and a narrator that is easy to listen to. Great value. !!!

I've been following a low-wheat-diet plan since a very long time. In the past year I had let some grains back into my diet. I followed the plans in this book by heart and down one pant size, feel awesome! Now I am following a straight and narrow diet plan which say,no grains, limited carbs, no sugar and this book definitely gave me the abs I wanted.
