So yeah, it's here. But the cover is not attached to the book. Fabulous. And it's a disaster to handle. Also, the title and description both imply that this comes with the needed access code but it doesn't. I know that access codes are never "guaranteed," however, it's in both the title and description. Misleading. I'm looking into return probably. Sigh. Waste of my money.

On the plus side, I got the book and it's probably usable. BUT, the book arrived completely unbound.

It met my expectations
