I am the coordinator for the religious education program in my parish. I very rarely use any textbooks since I find most to be vague about our faith, watered down, or written above the grade level the books are intended. It is very difficult to find material that is age-appropriate and does a good job explaining our faith. Totally Catholic! is both age-appropriate (ages 8 - 13), and it does a great job explaining our faith. All of my catechists are volunteers. They are wonderful with the kids, but there is so much to know about our faith. This book will serve as a great resource for them. They can have the book ready in case the kids ask something that needs to be looked up. Some of the features I love about the book: 1) It explains important events in the Bible and references where these events are located in the Bible. 2) Important words are in bold and an explanation of the word is given. 3) "Did You Know" sections give background information about events in the Bible or other aspects of our faith. 4) The layout makes it easy to read and use. 5) It does a good job explaining

specifics of our faith (saints, purgatory, immaculate conception, sacraments, the Mass, and more). The explanations are short and to the point. It has been my experience that kids want more than just generalities about our faith (God loves me, God forgives me, etc.). They want real information about our faith. This book gives it! I don't view this book as a textbook to read cover to cover. I view it as a book where we will read certain sections and discuss those sections, or use it as a springboard to an activity that deals with what was just learned in the sections read. Thank you for writing a book that actually explains our faith to kids.

The truths we believe as Catholic Christians is explained in a way that is easy for my grandsons, ages 8 and 12, to understand and accept as true. Yes even the mysteries of our faith become clear as mysteries and accepted as such. Faith can grow in this environment. I am using this book as part of their preparation for Baptism in the future. Wish I had had this book when my daughter was growing up. Maybe she would still be a practicing Catholic.

I wish I could give this more stars! I'm a CCD teacher for second grade and am also trying to teach my 3 kids at home about our faith. I've finally found a book that explains our faith in such an easy to understand, yet not watered down way. I'm going to donate as many as I can and ask all of the catechists to read and keep handy at class. Thank you Sister for writing such a very needed book!

I have not read the whole book yet, but the parts that I have read are so easy to understand and so teachable. I am using it as a reference for my Confirmation class. It has made it much easier for me to be able to relate information to my class. It also gives suggestions which are helpful. I highly recommend this book.

Great book for Catholic Kids!

Great book. It breaks down the basics of the Catholic faith in easy to read chapters. My 5 year old daughter enjoys listening to me read from it. I'm learning (and re-learning) along with her.

My 9 yr. old likes to read this at night with me. He is not in religious Ed. so this takes the place of that.

I thought it is just for kids, but it is good for adults to refresh the knowledge about Catechism.
