My 6 year old loves it and she has been taking lessons for several months.

It meet my expectations.

great product and service! Thank you!

This book has good classical selections and are written simple enough for a student that has the ability to make chord progressions between the first fourth and fifth I ordered one for each of my beginning students

My students love this book. Melodies they recognize; they can feel like they are playing classical music even though they are still beginners.
