Very Nice.

Great book

Building the library on theory books. Well-developed and easy to follow. Very satisfied and will continue to use the series.

ok

The book came in good condition and was the correct book for my sons class.

Received in perfect condition. I purchased for daughter's school band class.

As a learner I have found this series of books excellent when used in conjunction with the Make Music software program. Book 1 is available from the UK but I had to get Book 2 from the USA. the cost of shipping doubled the cost of the book in effect, however it is still a good deal.
