Customer Reviews

My husband and I went on our honeymoon to Kauai but couldn't rent a car or have enough money to take advantage of all the opportunities Kauai has to offer. A few years later we decided to go back and do everything we had missed on our first trip. This book was the perfect buy for our trip. We used this book in conjunction with,Â Kauai Trailblazer: Where to Hike, Snorkel, Bike, Paddle, Surf . These books helped us plan our entire trip down to the last detail. We were able to do more things and take advantage of what Kauai had to offer that we may have otherwise not known about without this book. The book gave us detailed directions to destinations they talked about in the book. We were able to visit several beaches it talked about and choose ideal snorkeling locations. It warned us of dangerous terrain and locations depending of the seasons. We were able to go on several hikes and explore hidden gems. I loved reading this book and learning more about Kauai and the culture and what this beautiful island has to offer. This book is a must for anyone traveling to Kauai.

This was a well written and researched guide. It gave a good overview and recommendations on lots of activities and food. One of the better travel guides I've found. The house we stayed at even had a copy in it for guests staying. We found the restaurant recommendations and what to avoid for that matter to be accurate.

I like to travel smart and this book enabled us to do so. It helps knowing where to park, tips on

eating, traffic and ocean conditions without having to boggle through it all ourselves. A Hawaiian vacation is a treat and we prefer not to waste precious moments. While our goal is always to relax, mai tai in hand, toes in the sand, when we do venture out, it's nice to know the ideal, and most inspiring experiences.

Fantastic book. I read the whole thing on the plane ride over there, and for the next 14 days we did many of the activities that are so ably and accurately described in this witty, perceptive book. We followed Doughty's recommendations with so much success that my daughter asked me, as we were getting ready to fly back home, "What are you going to do now that you don't have that book to tell you exactly everything you need to do every day?" Major thanks to the author for guiding us into the best vacation we've ever had.

Andrew's Hawaii books are amazing. I love the details and all of the insider information on how to have the very best trip for you. He, and his team, give you plenty of ways to tailor your vacation to suit your travel style. We bought the revised guide to Kauai because our old one "might" have been out of date, we are thrilled to have the new book. The new smartphone app is a great addition as well. We have been to all of the islands and take these books every time!

We recently went on vacation to the garden island and I wanted a resource that would give us information that would help us maximize our stay on the island. Andrew really knows the island well and gives you so much helpful information, pointers and tips on where to go and what to do. It proved to be a very valuable resource as we visited many of the beaches he recommends in the book and we ended up taking a helicopter ride per his suggestion. It is very well written and organized and helped us so much.

If you want to know what to see and do on Kauai this is the book for everyone. A very good read. They are also coming out with an App that will prove invaluable especially when going off the beaten track with point-by-point GPS coordinates. Unfortunately, as of 4 June 2017 that App is not yet available (they say it will be ready in 2017) which is a pretty big window. One thing to remember about Kauai, they role up the sidewalks early there, not a lot of nightlife.

I am bookmarking so many pages before our trip! I wish there were more pictures, I am constantly googling certain places in the book to see what they look like (but of course I get that you can't put a

picture of every single thing). Loooooove the author he is HILARIOUS-I keep rereading certain parts to my fiancÃ© cause I'm like "listen to this"! He writes like I talk in real life Ã Â Â^Â•
