Cat Training: The Definitive Step By Step Guide To Training Your Cat Positively, With Minimal Effort (Cat Training, Potty Training, Kitten Training, Toilet ... Scratching, Care, Litter Box, Aggression)

Synopsis

Have you ever wondered what your cat is thinking or trying to tell you in his language? For many of us, cat language feels foreign, difficult to understand, and even harder to decipher. We all know about the effects that an untrained cat can have on our stress levels and wallet. Proper training and care can make it easy to raise a well-behaved and loving companion. More often than not, cats can have tricky to solve behavior problems that can easily escalate with time. Due to their nature, cats can sometimes seem unpredictable and apparently less inclined to cooperate with us. Here's some of what you can expect to learn inside the pages of this book: Learn what triggers bad behaviors and what training mistakes to avoid so you can accelerate the learning process. Understanding what your cat is trying to tell you in his language and completely eliminate guesswork. How to potty train your cat so that he doesn't turn your entire house into his own litter box. How to make older cats accept new members of the family without any unwanted behaviors. Learn how short or long training sessions should be based on your cat's age. This is very important! Proper training can have a lot of good benefits on the health and stress levels of your beloved companion. Your cat will thank you for it. The best moment to start with cat training is right now. Don't let those bad habits continue to sink in! What are you waiting for? Bad behaviors and habits can be tricky to revert the more you let your kitten get away with them. Customer Reviews

Very well written. Following all the steps in this book can help you train your cat. Cats way outsmart humans so it is an uphill battle but there are plenty of great ideas to help you and your cat get along much better. This book breaks down the various methods of training your cat, *when* to use the method, and *why* it works. Understanding how to train a cat and developing a relationship with your cat is essential. I would strongly recommend this book to anyone that is considering obtaining a cat as a pet or who already has one as a pet.

As a veterinarian, I would recommend this book to all the owners of cats. I am often asked - cat scratching my favorite sofa, what should I do? Or - how to train a kitten to the litter box? So - I'm ready to give them a copy of this book, because here they will be able to find answers to all such questions, and even more.

A fantastic book filled with inspiring stories and pictures of adventurous cats and their owners. Simple easy to understand, with great insight into the world of cats. And thanks to this book we now know how to train her to be a good kitty and do her potty job in the right place. Cat Training by Robert is a must have book!

My daughter just brought a kitty from a shelter and we are getting used to living with a new family member now. And thanks to this book we now know how to train her to be a good kitty and do her potty job in the right place. It's truly a helpful guide for first-time cat owners like us.

I have had cats most of my life. Recently, I decided I wanted to understand my cats a little more than I have in the past so I bought this to see if I could round out my knowledge on the cat world. Great insight and have learned more that I had hoped. A lot is review, but have gotten good tips for my newest kitten.

This might be an okay starter book for someone who doesn't know the first thing about cats. There

isn't much in there. The information given is accurate, though.

OK, first thing you notice is that, for \$14.95 it is basically a pamphlet that should cost about \$4.95 at the absolute most. The second thing I noticed is that it is kids printing meaning there are huge gaps on pages with few words per line and large printing. The next thing was that a very lot of this stuff is common sense or what you would get in 2 pages from the shelter where you got your pet. At some point it also became obvious that if this really was the "definitive step by step guide to training" it claims it is, it would have to be much thicker. This is rudimentary at best. I am also sure will not print this review because they regularly have not published the few negative reviews I have given.
