I was excited to get this Bible but the first time I sat down with it and my kids, we had a problem-- the print is way too small. We are avid readers and I've never heard my kids complain about font or font size. I meant to send it with my 10 yr. old to church, but the print is too uncomfortably small to read. I did have my kids' eyes checked earlier this year so I know it isn't just us. :-)

I was given one of these Bibles to give to a 9 yr. old in my VBS class who asked for a Bible of his own. I reviewed it before I gave it to him. I couldn't put it down! The version is the New Living Bible and it isn't one I would study, however, it really brings out clear explanation of situations in a child's life. First and foremost, the book helps the child understand the gospel; it connects the Old Testament with the New Testament using the significance of prophecy and stories in foretelling the need and the coming of the Messiah. There are topics included in the book and there are questions asked that challenge the child. I was thrilled with it and because of that, I have searched the internet and bought a half dozen used Hands-On Bible books to give to children I teach who ask for a Bible. I pray the book will lead a child to ask Jesus to come into their heart!

We ordered these Bibles to give to children who needed a Bible. The NLT was chosen for readability and the translators for the paraphrase were conservative in their approach. Group has done a great job with the supplemental notes and activities for children that stimulates interest and excitement in reading God's word. One recommendation for the publishers and this never occurred to me but children even in the third grade recognized that it does not look like a real Bible and they requested instead ESV thin line Bibles. Maybe a redesign to make it look more like a Bible toning down the cartoon cover to more neutral colors. This was not a big issue but I could see it being an issue as the children get older.

Love it.

My 8 yo loves this bible and so does her Sunday School teacher. It fits right in with the Sunday

school curriculum used in the classroom. It has a lot of bright pictures and explains things in a manner in which the children understand. Has a lot of hands on activities that help our daughter learn the lesson more thoroughly and gives us a different perspective also. Great learning tool for all.

This is the perfect bible for kids who want to read on their own. My 9 year old nephew loves this bible because it has all kinds of experiments and things to do. He loves science, so this was an easy pick on my part. The NLT is on a 6th grade reading level which is great because at 9, he can sort of grow with it until he wants to move onto something more challenging. We learn more when we interact with the subject matter, so this bible has my vote for helping my nephew to discover his own faith - and not the faith of his family. God calls us all to discover him for ourselves and I love that this Bible facilitates that process.

My 11 year old son absolutely loves this Bible. It is geared for younger kids, but is perfectly fine for older ones as well. He loves reading it.

awesome product
