Customer Reviews

RV Travel and living is becoming very popular and I thought it may be a good idea to check into what it is all about. I found this RV guide book very helpful for getting more than just the basics of living in a motor home full time. I enjoy seeing the country and wanted to find a way to do so while also reducing my living expenses. I never considered an RV as a home and now I see how this can become a reality. With all the information learned within this guide, I am now looking into downsizing from my place and actually giving the RV lifestyle a try for a few years! Thank you for the informative and helpful book! Time to see the country!

This book was a really cool read! Since IÃ¢Âm moving to California this summer, I have been overwhelmed with finding affordable housing, and with all of the money going toward rent, thereÃ¢Âs still so many other expenses like utilities and pet fees. IÃ¢Âve seriously been considering living on the road Ã¢Â and after reading this book I think I might!The author gives a very clear and helpful guidebookÃ¢Â to living in an RV. The most helpful part was the distinction between different types of vehicles (IÃ¢Âm not a car person.) But what I love is that it helps you with the on-the-road lifestyle. This book is very beneficial if you want to get an RV and be free of being stuck in one place!

I live an ordinary life. Like the most people, my life includes work and home and a few friends it is habitually but honestly, it is gloomy. Many times I've been thinking about traveling, but every time I found many complex aspects which demotivated me. This book has shown me that it's easy and much cheaper than I thought! This is the great guide and I am very glad that I bought it, it explained me a lot of things that otherwise I could find out by making a lot of mistakes.

I personally have never tried living in an RV before and I think it is great. I appreciate that the book gave simple and easy to understand discussions about travel and living in an RV. It is simple and perfect for beginners.

This book tackles everything you need to know about the RV lifestyle “from how to choose an RV to how to get Internet access on the road, to must-know towing tips and recommendations for more than 50 places you can visit on your RV. This aim to continue to bring our top quality tips, tricks, road tests, destination features, and recipes to our loyal readers.

A triple threat because along with sharing their adventures from the road they are also experienced divers and foody™s. Be sure to check them out.

Don't waste your money. Skimpy information. Buy the Secrets of RVing on Social Security.

Highly recommend. outstanding product that is easy to use Delivered on time. doesn't get much better A satisfying product I bought this time. Great quality and delivered on time.
