Instructions are simple and easy to understand! The illustrations are great also!

I had to buy this for my draping class in college. While it is a great book, has clear instructions and great illustrations it's missing pages. For something that costs \$90 I would expect better publishing

standards.

This is my sisters review: As a beginner, it seemed pretty simple to me and covered a lot of the basics. But if you want to make something more complicated, you'd have to twik the basics.

A few stains here and there, but all in all amazing quality. So far I haven't seen a single rip or mark in the book. Very happy with my purchase!

Connie is a super teacher and I have had the privilege of taking 12 classes from her. I have many of her patterns and books.

Very informative and fashion forward. I had Connie sign my copy in person and believe she is the one who knows what she is talking about.

Really great and easy images to follow. Sometimes the projects are a bit limited to specific silouettes, but they try to provide a wide variety of looks. The book arrived in great shape and on time as described.

I love that the book is very clear. She goes through the stages simply and clearly. I would definitely recommend this to other persons. The only downfall is that the book is pretty expensive but luckily I got mine at a reduced price.
