My 7 year old son wanted a book about tanks so I found this one. It has side elevation drawings of each vehicle, one per tank so don't expect a lot of extra detail. It makes a good basic guide. My son loves it so much he even uses it for his copy writing practice.

Great reference for the time period included. Wish the one for the post 1940 time period was readily available. Waited over a month for it to come in until I finally cancelled the order.

Covers a plethora of different submarines. The problem for the author is the sheer numbers to include. He made a reasonable set of choices-some I liked, and some that I wish were included. Overall a well-done effort.

Lots of neat pictures, my boys loved it.

7yo tank enthusiast loved this for Christmas. He and his brother have read and reread this. They can identify different tanks and quote stats. It is pretty cute!

Excellent source of illustrations and information on a wide variety of armored vehicles.

This is a good book but really too informative. Descriptions way to short

THE PHOTOGRAPHY IS GOOD. THE COLOR PROFILES ARE FAIR TO GOOD. THE HISTORIC REVIEWS OF THE GREAT SUBS IS GOOD.
