# Mom's Five-Second Memory Journal: A Memento Of Motherhood

## Synopsis

Whether you're a mom with only five seconds to spare or a mom with an attention span of five seconds, this journal is for you! Mom's Five-Second Memory Journal includes playful, breezy, and sometimes eccentric prompts to jot down thoughts on your life as a wife, a professional, and, of course, a mother to those wild and crazy kids! The journal is portable enough to carry in your bag, yet substantial enough to become a keepsake. And best of all, since the journal isn't chronological, you won't feel guilty if you don't fill it out for a week (or a month or three)!

This is super cute!! You don't need to record things in order. I'm going to purchase a few more for my momma friends. Great way to hold onto memories!

I bought this journal after reading reviews and descriptions of other journals for mothers. I am a very busy mom with two small children who works about hundred hours a week. I love the idea of keeping a journal but hate the idea of "Dear diary" type of journal. This one is a lot of fun! It has fun questions and the ability to check off feelings about things rather than having to write every single feeling down. It then gives you a few lines to fill in your own thoughts. I think one day my children would get a kick out of reading this. It covers a wide array of every day things such as what I think of

when I hear dinner, holiday, dear, hope. If someone wrote a song about me it would be and they give you choices to check off or you can check off other and fill in the blank. I think if you're really honest in this journal your children can learn more about you in years to come them what you can show them on a daily basis. Because sometimes or showing our children is and always was going on in her head. The book is a little small and that's why didn't give it five stars. It's a little difficult to write in because of it being so small and hard covered. There are certain thoughts that I had more than five seconds to work on and I wish I would've had a little bit more room for those. However, I've just added those thoughts on an extra piece of paper and paperclip them inside. This is a great book for very busy moms!

ADORABLE little book and lots of fun while waiting or to jot in when you have a few minutes. Will be something cute to give to the kids when they get older.

This absolutely adorable book would be the PERFECT gift for any budy mama who wants to jot down some of those fun moments in life!!! I bought this for myself and will be gifting it from now on too! Tons of great prompts to help document your daily sweet-choas! Sweet solution to the mommy who wants to journal but doesn't have much time!

some of the questions are a little bizarre but I still think it will be cute someday for my son to read. I purchased a similar book for my grandmother to fill out for me and I love some of the questions one would never think of.

It leaves just enough time to actually get some interesting memories down, but not too much to not get it done. I was pleased with the variety of questions. I loved the moments I could share with my son, who was able to draw a bit in it. It's definitely something we will both treasure as time goes on.

Another Shower/Baby gift given. The mother had ranted and raved about how good this little book is! It's great to stick in your purse and jot down a few notes while waiting at doctors office or for dinner one night in a restaurant! She LOVED this and thought it was something great to have! Definitely going to be in all my gifts for mom's to be in the future! Even purchased myself one! :)

When you don't have a lot of time to keep a journal this little book let's you keep track of dates and things your baby does. Decent price from and a fun little book to give an expecting mom.
