La La Land: Music From The Motion Picture Soundtrack For Easy Piano

Synopsis

(Easy Piano Songbook). La La Land is the breakout movie of 2017, winning a record number of Golden Globe Awards, including Best Original Score for Justin Hurwitz, and earning a record-tying number of Oscar nominations. This songbook features ten songs from the movie in easy piano arrangements with lyrics: Another Day of Sun * Audition (The Fools Who Dream) * City of Stars * Engagement Party * Epilogue * A Lovely Night * Mia & Sebastian's Theme * Planetarium * Someone in the Crowd * Start a Fire.

Customer Reviews

I bought this Kindle version. Why is the Kindle version different from the paper version? I need a piano version. I don't need guitar version. Please return this.

My daughter has been playing for about eight years...the "easy" version is a good level for her.

Great easy piano book. If you like the music from La La Land, this easy piano book will allow you to pick it up and play it without much practice.

Inspiring and beautiful!

Won't let me down load it. Only streaming. So, I have to be on line to play it. It's great though.

Just bought the kindle version. The songs sounds right but they decided to change the key on some of the songs. I was really excited to learn how to play mia and sebastian's theme like they do in the movie but they changed the key down a whole step. They also changed the key for the epilogue. 3 stars because the music sounds fine but it isn't very complex. I think you could teach yourself off of youtube a more accurate soundtrack compared to this book sadly.

Well, I am having SO much fun with this! After much confusion in the beginning with getting the right version, it finally came and it's perfect! Having been away from the piano for 50 or so years, I'm not up to the regular version. This is absolutely perfect for me. The arrangements give you enough to be satisfying - the type is big so Old Lady Eyes can read it - and it's a really good value to boot. Thanks so much for making this glorious music accessible to all of us. Perfect!

I watched the movie and loved the soundtrack. So I went out to find a copy of the sheet music. This looked like the best option. I can't shipments where I live. So I bought the Kindle version (first time buying sheet music on Kindle). However, I was shocked and really angry to find that after downloading the app on my computer for just this purpose and buying the book, it doesn't work! The music staff is so small on the screen that you can't see what the notes are! And there's no way to make it bigger. I thought maybe I could just print the pages or convert it to PDF, but none of that worked. So, in the end it's totally useless. I feel cheated. Does anyone else have experience with this?
