Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

Does a good job with some nuts and bolts stuff. The composition section near the end is really quite good and a challenge to students at all levels. The section on sentence diagramming is not done well -- it's formulated along the lines of throwing a child in the water and saying 'Now, swim!' I've had to take more time in some areas, such as prepositional phrases, and pull worksheets off the net. Still, the book is worth it.

This is a very large book for what I thought was a good price. However there is no answer key which means I have a lot of extra work grading the work. I would not recommend buying this book.

I erroneously wrote the review intended for this purchase for the purchase of a fa..which I am pleased with. .this item came almost torn in 2! Will have to tape it up. And no time to repurchase and
