LOVE These! Great for homeschool instruction. My 8-year old completed this in 35 days and each lesson builds off of the last one.

Great book. Bought it for my son so that he can practice on his writing and prepare for the 4th grade. He has ADHD and this book definitely challenges him but isn't overly difficult.

I love Kumon everything. My daughter goes to learning center twice a week and works on the booklets they give her daily. This helps her do extra stuff. She loves it and her reading, writing and math has improved so much it's been an amazing transformation! It's also affordable.

Our family really loves Kumon books. Been using Kumon books for a long time now, for part of my children's home schooling. We absolutely love them. Very easy to use & understand. Thank you Kumon!

I find Kumon books are a bit easy and find I need to purchase a higher grade level book for my students.

it's easier than what I thought. it's not what it described. it is more for 2nd grade or lower grade

My girls love kumon. Well written. Age appropriate .

Bought this as extra practice for my son and it has been very helpful!
