Customer Reviews

It's a wonderful cook book full of great recipes. The colorful, simple and delicious looking pictures makes it easier to decide which dishes to try first. Usually with cook books, it never turns out the way it's suppose to look like when you finally try it, but not with this book. It's pretty detailed. The author has made sure there is little chance that you might go wrong. This is the kind of book that I will always be confident to refer to when I try something new for the first time. In my opinion, this is the BEST Maldivian recipe book out there. Can't wait to get it in print!

Lots of great recipes with clear instructions. I'm a novice cook at best but found this book easy to follow. The food is delicious and nutritious -- great value!
