Age Range: 2 - 4 years

Grade Level: Preschool and up

Customer Reviews

Cute book for my potty trainers and it went along with my fairy theme in my classroom. All the children thought they were fairies when they were using the potty!

My toddler Luvs the book! She enjoys the different material used for the underwear on the princess on the cover of the book. She likes to feel it. If you have a princess and trouble potty training .. get this book it'll help!

Great book for little girls who love to be princess to help them get excited about going potty.

Cute little story to get your little one excited for potty training. It does use the British term for underwear (pants) so when I read it to my daughter I read it as "panties".

My daughter loves this cute book. Helped getting her more comfortable with the potty

It's already a fave of hers. She wants to ready it over and over.

Cute pictures not a good story & it's Australian do the way it's written is confusing for an American toddler. But good price. I make up a better story

Not what I hoped for. 2 stars for cuteness but the toilet is too abstract. If your not training with a little potty, the book is not helpful. I've never used little potty's and have used our regular toilet which is what they will see anywhere they will go. I was not able to use the book to show the little girl going to the toilet so it did not help as I needed it to.
