This was a required book for a college class.

Very inspiring and it really made me learn a lot about different cultures. I gain a whole new RESPECT to everyone around the world with their traditions, culture, beliefs, etc. I really recommend this book to everyone even if you don't take a class that require this book or any classes at all. It is always great to learn something new. I really hope everyone will give this book a shot. :)

This was exactly what I was looking for and it was as described. I am very satisfied with the price and the condition. I have been in school for some time and find that 9/10 times I find my books on at a great price. There is not much to say about a used school book except that it is what was described and arrived in a great time period.

Renting Intercultural Competence has been a life saver for me. This is the first time I rented a book and I am very happy that I found this option just before the start of class. The book, itself, is a very

interesting and well written textbook. Real life examples are given to accent the subjects covered. I feel so much more intelligent because the book lays down a nice foundation in linquistics culture, verbal/nonverbal communication and life.

This book changed my life. My whole perspective on school has totally been wiped clean and has been replaced with the most insightful piece of text human kind has written. If you have not bought yourself a copy of this book yet, well to be frank, then you have not been treating yourself with any self respect.

I rented this for a college class. I hate how this book is written and organized! It's very hard to find definitions in the text and it feels like the index in index in the back is incomplete. There are good examples and information presented in he text, but having to use this for a college class was just awful.

This book was Very easy to understand and it really helped me with all my quizzes. I actually enjoyed reading it

Intercultural Competence: Interpersonal Communication Across Cultures (6th Edition) A great book for learning how to avoid putting your foot in your mouth! A wealth of information on people around the world, pointing out similarities, as well as the differences. A worthy addition to the two-book series "How to be a Perfect Stranger," which mainly treats the various religions and their sundry internal denominations. (Sunni vs Shiite vs Sufi; or Catholic vs Orthodox vs 300+ Protestant sects) Every family should have a copy for facilitating peaceful and harmonious living together.
