The Music Of Stravinsky (Clarendon Paperbacks)

Synopsis

Stravinsky was one of the most original creative musicians of the twentieth century. In a career spanning six decades he composed a glittering sequence of works of astonishing diversity, from the three vividly colorful early Russian ballets, through the sharp wit and purity of his neo-classical scores and the powerful spirituality of works like the Symphony of Psalms and the Mass, to the highly individual application of serialism in the late works. This is a critical survey of Stravinsky's entire output in chronological order written in an accessible style for students, scholars, and all music lovers. Walsh draws on recent literature and the composer's own letters and sketches to provide fresh insights into Stravinsky's works. He argues persuasively that Stravinsky needs to be seen whole, and that the works are more closely connected in style and method than is generally acknowledged.

Customer Reviews

"Pride of place should go to Walsh's own book....Walsh provides a skillfully balanced blend of historical, technical and critical discussion."--Music Analysis
"Lively and combative in style, the writing characteristically rises to its most eloquent."--Musical Times

Here is a critical survey of Stravinsky's entire output from a lucid and authoritative guide. Its author, Stephen Walsh, has effortlessly assimilated the new literature on the composer, has examined

many of Stravinsky's letters and sketches, and is able, in continuously questioning received views, to provide fresh insight into Stravinsky's works.

This book is in very good condition. I appreciate it.

The most authoritative examination to date of the music of the premier composer of the twentieth century. We eagerly await Mr. Walsh's two volume biography of the subject.
