Not as complete as I expected

Per usual, this was a wonderful read from Lonely Planet! I used this travel guide on my trip to Italy this summer, and it was a great help! We went to San Marco, and we took a gondola ride on The Grand Canal. We stayed on Venice Lido, and took the water taxi to and from the island. As usual, this book is filled with pictures, information, and very detailed tips and tourist guides. It also includes a map in the back. There are tips for where to go with kids, and a family. There is also a survival guide close to the back! Would you be interested in going to/seeing:-Chiesa di San Giorgio Maggiore? Most tourists do not go up to it, but instead are able to see it across the water. The Istrian stone is used to make it stand out, and it is placed where the sun can shine down on it for a major part of the day.-Murano? On this island, you can see factories where glass is being shaped by hand, and you can buy a souvenir or two!-The Arsenale, founded in 1104?! Perhaps 'Europe's greatest naval installation'!If you're interested in learning more about Venice and the Veneto, place an order now! It'll be hard not to go, after reading through all the information in this book! On a personal note, Venice is a beautiful city/island, and I had a blast while I was there, so I definitely recommend that you go there for your next vacation, and don't forget to bring this handy little travel

guide with you!! would like to thank Lonely Planet for providing me with this book in exchange for an honest review.
