Sierra Railway (Images Of Rail)

Synopsis

The Sierra Railway is one of the most intact steam railroads in the United States. It is operated today by California State Parks to interpret and celebrate the importance of steam railroading in California history. Located in the Gold Rush town of Jamestown, in Tuolumne County, the railway began operations in 1897 and played an important role in developing the economy of Tuolumne and adjoining Calaveras County. While nearly all other steam short-line railroads in the United States were dismantled in the 1950s, the Sierra line has survived in a remarkably complete condition. The railway was a big hit among railfans, who flocked to it as early as the 1930s and in increasing numbers in the 1950s. Now operated as Railtown 1897 State Historic Park, the steam operation of the railroad is very much alive.

Customer Reviews

Gift for my boyfriend who has a passion for railroads and a railroad in his backyard. He loves these books and I love being able to purchase them for him. They are very interesting and informative.

Nice to have all the complete story about Railtown 1897 in one book. Great photos, including ones of famous movie stars who filmed westerns on location in the foothill town of Jamestown. Makes me want to go back and ride the steam train again next time I'm in the area!
