Smathers Beach in Key West is just one of many beautiful spots to watch the sun rise over the ocean. See chapter 11. Easy-to-read maps throughout Exact prices, directions, opening hours,

and other practical information Candid reviews of hotels and restaurants, plus sights, shopping, and nightlife Itineraries, walking tours, and trip-planning ideas Insider tips from local expert authors

That's about it, it's okay. Typically travel books have pictures demonstrating the hotel's, places you may keep, just showing you where you're going to go, this book does not. The maps are definitely not worth it, and the lack of photos leave this more of a textbook than a traveler's guide.

On a recent trip to Key West, we used this book to travel from Fort Lauderdale to Key West and back, stopping along the way. It was perfect, giving us choices of attractions and restaurants and shops to check out all thru the keys. We will use it to play around in Miami next!

This book was a great reference guide. It is a lot of info to read in with a limited amount of time before the trip. With that being said, I would recommend purchasing 4 weeks or more prior to your trip so you can really plan out what you would like to see and where you would like to go.

Living in South Florida, there are plenty of opportunities to host family and friends visiting from town. This book is full of great ideas from food, to lodging to travel itineraries. And it's a good way for locals to keep up with the rapid changes in the landscape.

Ok book. joes stone crab. Too expensive. Surley waiters. Cheaper on Ocean ave and more fun

Love the cover and the insides match. I love it. Lots of details. A lot about Miami in this book.
