Roadmap To Liberty: The Liberty-Approach To Every Economic, Political And Social Topic

Synopsis

ROADMAP TO LIBERTY lays out how free markets have the power to solve the countless problems of big government. Every major economic, political and social issue is covered: ranging from our \$22 trillion in welfare spending that has failed to lower poverty by even 1% point over the last 50 years, to our bloated military industrial complex that costs the average US taxpayer \$5,000 per year. Whether you are looking for a comprehensive guide on how to apply the principles of liberty to any life situation, an introduction to key libertarian concepts, or simply a repertoire of fact-based arguments ordered by issue - Roadmap to Liberty delivers. Your time is limited - this is why I made all efforts to summarize everything you need to know about liberty in little more than 40 chapters and sub-chapters - readable in any order! "Roadmap to Liberty" has one of the highest "information densities" of any book out there - promised. Written in an Easy-to-Grasp Conversational Style. Featuring examples from around the world on how government should and should not work - including cases on: How one company was granted the monopoly right to produce TSA baggage locks. How privatization of wildlife saved entire species from extinction in Africa. The US's 900 foreign military bases worldwide - 30 times more than all the foreign military bases owned by all other countries combined. The background on why the US abandoned the gold standard, and how the petrodollar system replaced it. The success of school vouchers in NYC and DC, and the fact that government schooling costs more than private school. The mathematical proof of why truly unregulated free trade (i.e. not government regulated trade such as the TPP) is always good. How the total word count of US regulations increased by 40% between 1997 and 2012 alone - reaching more than 100 million words. How Libya went from Africa's richest state to a failed country. Above list includes just the tiniest tip of the iceberg of mind-blowing, around-the-world case stories. Happy Reading & Thinking! - For more information visit RoadmapToLiberty.com

Chapter Overview

Ch 1 - Principles of Liberty

Ch 2 - Political Ideologies

Customer Reviews

"What differentiates Roadmap To Liberty is its focus on solutions. For every issue the author outlines many solutions - ranging from the moderate to the extreme"Â Â -Â William BrooksÂ "If you are short on time, this is the book for you. You will easily be able to read a chapter during a 20 min subway commute"Â - Allan Van Der Veen"I have never encountered a book on politics with so many densely packed facts. Bravo!"Â Â - James Bloomfield"Perfect introduction to libertarianism for newbies, as well as a great factbook for long-time libertarians"Â Â - Cedric Legrand
