good

The book is pretty and I am enjoying learning some of the techniques that Mr. Harrison uses so aptly. However, I was a little disappointed in that there actually were very few detailed painting instructions. Some of the prettiest pictures he has done had no instructions. But, all in all, a nicely presented book. I will be purchasing another of his books in order to broaden my practice arena. I

would definitely recommend this book!

Great way to learn painting with acrylics. The book have just enough introductory sections, then gets right down to putting paint on canvas, or Masonite or paper... Wonderful clear instructions, dozens of examples of each technique.

I love to paint, and this is as good or better than taking a class (I do that too). Lots of hints and suggestions, not so interested in purchasing Mr. Harrison's personal brand of brushes and paints. But his instruction is great, love the instruction on creating texture in the painting. All painting is illusion, some are better than others.

I bought the book mainly because I love the way Terry Harrison does reflections and light. He pays a lot of attention to architectural details in his paintings, which I'm generally not so interested in, but still to me the book has much to offer. The instructions are easy to follow. For the more complex paintings in here some drawing experience is definitely an advantage. Having the brush set helps a lot. Some might think of that as a minus, but I had recently started "mutilating" brushes to get these results. His are ready to go and perform as promised, which is less expensive in the long run.

LOTS OF INFORMATION, HOW TO PAINT VARIOUS TREES, LANDSCAPES, TYPE OF BRUSH TO USE AND NUMEROUS OTHER TIPS. GREAT FOR SOMEONE WHO IS JUST LEARNING ALL ABOUT PAINTING! GREAT INFORMATION!

This is my favorite book on how to paint landscapes so far. It is great for a beginner. It really is the easy way.

Terry Harrison is a great painter and makes it easy for you to start becoming a great painter as well. His books are very helpful. I have three books from him, all of them being acrylic painting books. I read one of his books as a beginner and it helped me improve my painting skills very quickly. I was able to recreate some of his paintings within a short time of painting. I highly recommend this book.
