This book gives you tab and the way the notes are formatted it is difficult to read; not in simple terms. Plus, they only give you segments of songs not the entire song. The title is very misleading. A song is in its entirety not just a fraction of it.

This is exactly what I was looking for! So excited to learn these songs. Easy to follow and just incredible!

Great Sokolow Book, still working thru it.

Fred hits another one over the ivy! No disc, but you know most of these tunes anyway. I'm gonna

play them all! Eventually.

I wasn't able to use this book because it was too confusing because the songs had three formats: the first few measures with the notes for the melody, then most of the song was in tab form, then the lyrics. I couldn't understand how to use it so it went back to .It was so disappointing because songs included are amazing and they ARE the first 50 songs that I'd want to learn!By the way, I play classical piano and read music very well so it wasn't that the notes were too hard. It was the tab form used by the editors.

Incredibly Usable Book! EXCELLENT presentation of each song, the chords for that song, words, everything works! And lots of good songs too, stuff that you are going to want to play.

I did not realize this had lead sheets only so as a beginner this is difficult to work with. My teacher is helping me work thru it.

Found a few songs that we liked. Good Value for price.
