Customer Reviews

Not very good.I just wanted a book simply covering the battles' strategy and tactics.This is a very simple book but mostly about the personalities, such as the generals, who fought there,Not much on strategy, no maps, not interesting

This book summarizes the battles of the war, each separately and succinctly. Recommended for anyone wishing a brief but complete description of the war.

A very good read with a lot of events I was unaware of.

I enjoy having a reference book that doesn't sound like a reference book. The battles in this volume are described without unnecessary background clutter. A pleasure to read.
