Today's Technician: Automotive Electricity And Electronics, Classroom And Shop Manual Pack

Synopsis

Ideal for aspiring and active automotive professionals, TODAY'S TECHNICIAN: AUTOMOTIVE ELECTRICITY & ELECTRONICS, Sixth Edition, equips readers to confidently understand, diagnose, and repair electrical and electronic systems in today's automobiles. Using a unique two-volume approach to optimize learning in both the classroom and the auto shop, the first volume (Classroom Manual) details the theory and application of electricity, electronics, and circuitry in modern automobiles, while the second (Shop Manual) covers real-world symptoms, diagnostics, and repair information. Known for its comprehensive coverage, accurate and up-to-date technical information, and hundreds of detailed illustrations and vibrant photographs, the text is an ideal resource to prepare for success as an automotive technician or pursue ASE certification. Now updated with extensive information on new and emerging technology and techniques--including audio and infotainment systems, LED and adaptive lighting, hybrid and electric vehicles, and accessory systems--the Sixth Edition also aligns with the NATEF 2012 accreditation model, including job sheets correlated to specific AST and MAST tasks.

Book Information

Series: Today's Technician

Spiral-bound: 250 pages

Publisher: Delmar Cengage Learning; 6 edition (January 31, 2014)

Language: English

ISBN-10: 1285425715

Customer Reviews

"This is a very good classroom and shop manual that any student can understand and get a good comprehension on electrical diagnosis and repair."- Jason Daniels, University of Northwestern Ohio
"I like this book compared to others. I will use this book for years to come."- Gary Norden, Elgin

Community College

Barry Hollembeak has been involved in the automotive repair industry for more than 40 years and has provided technical training to dealership technicians for 20 years. Mr. Hollembeak entered the automotive technology field in 1974 as a service technician, working in both fleet and independent repair shops before opening his own repair facility. After selling his business and retiring as a technician, he became an instructor and author, teaching automotive technology at the post-secondary level for five years and serving as director of education for two years. Mr. Hollembeak then entered manufacturer training. He currently owns his own training development company, which provides both written training materials and eLearning courses to the aftermarket automotive repair industry. Mr. Hollembeak is a Master and Advanced Engine Performance Certified Technician with ASE; serves as an advisory board member for Arapahoe Community College's automotive technology program; and is involved with the College Automotive Program, AYES, and SkillsUSA. Mr. Hollembeak has been a guest speaker for NATEF, CATS, and several other organizations.

Great book, written well, clear and concise. The diaphragms and photos are excellent.

Order this because it said shop manual and classroom textbook but only the classroom text came. I don't know if this is a typo but it's ridiculous, don't bother buying if you want both copies.

college

Purchased for my son for school. Well written, easy to follow.

Bought used to save some money. They came in better shape than I was expecting. Can't wait for him to use what he's learned !

Its a text book for school what can I say

INFORMATION WAS CONFLICTING BETWEEN THE CHAPTER AND THE QUIZES AT THE END.

Needed this book for class. Couldn't afford new. Rented it and it works great. Very clean book and had workbook with it
