Synopsis

This book helped me realize I was dating a guy who clearly had no intention of ever getting serious with me. I bought this book because I was having mixed feelings about a boyfriend I was hoping would love me back. While this book was painful to read, half way through it I realized the guy I was in love with most likely was staying with me because he didn't like being alone and it seemed he would continue dating me until he found someone he liked better. The book helped me realize I needed to dump a guy who was using me and find someone who would love me back. I told him the next day I loved him but loved myself more and was going to find the kind of man I needed..While I know there may be lots of exceptions to the reasons they gave for a guy not committing, this short and painful book helped me face the fact that I had been wasting my time loving a guy who did not share my feelings and was not worth my time. Glad I bought it because I dumped that user and have since found someone who respects and loves me back and that, to me, is as good as it gets.

I was pretty surprised with this ebook. There are a ton of obvious reasons that I completely overlooked. I do have to note that there are some that are some very close repeats. But all in all it was worth the price. A good cheap read.

This book gives us some recommendations toward the relationship we are having now. I really enjoyed reading this book and laugh a lot about some real situations!!!

I would recommend this book to all the single women who would love to find the right guy in their

life.

Ok, I'm a male, so I can only give a male's perspective here. Being single, I was interested to see if the author could successfully put into words the reasons why I avoid getting 'tied-down'. I'm happy to report that he knows what he is talking about, and I found myself nodding along and agreeing with most of it; some points weren't relevant, of course, since there are so many. Anyway, the information is solid, and the book well-written (in my opinion). If anything could have been improved, I think maybe better navigation to each of the individual reasons would have been helpful. Not necessarily in the book's table of contents, but at least when you click the contents button on the LHS of the screen (Kindle-for-PC). Either way, great info and 5 stars... I just purchased two more of the author's books after reading this one!

Very informative, a great insight of the way men think and react to women and what makes them not want to commit to a woman, a must read for anyone in a serious relationship and wants him to commit this book has it all the good, the bad and the ugly, its a good book.

I'm moving forward from a break-up and this book spelled out some things I hadn't figured out about men yet. Recommended.

I really enjoyed reading this book. It provided a lot of new information. Great price too. 100% Recommended. Thank you
