Customer Reviews

The great thing about this book is the fact that Animals guitar tabs are so hard to find, sure you'll find hundreds of transcriptions of House of the Rising Sun in various guitar books and you might even find a few others Animals songs like Don't Let Me Be Misunderstood or San Franciscan Nights, but a good chunk of the songs in this book like Baby Let Me Take You Home, Boom Boom (Animals Version), or I'm Crying really can't be found anywhere else. There's really no arguing with the song selection, its perfect in my opinion, all their hits and well known songs are here from their very early years to when it was just Eric Burdon doing psychedelic stuff and even a War song with Burdon on vocals. For the most part the Animals were a keyboard band, the guitar mainly sat in the background doing basic chord strums and repeated riffs throughout the songs, however that's not

saying the guitar wasn't important to the band's sound and that there weren't occasional fun solos. However my main complaint is that a good half of the songs in this book aren't really tabbed out, there are just chords given with strumming patterns. Again like I said the Animals weren't a guitar heavy group but it would have been nice to see tabbed out chords rather than just chord diagrams. Aside from that I can't complain though, tabs are accurate, songs are simple that most beginner guitarists can tackle these with little issue, and it's really every Animal song you'd ever want to learn how to play. It's good to see a band like the Animals getting a tab book.

I was surprised at how great this book was. I play guitar casually and I love The Animals. This book is very accurate and easy to read. As a self-described beginner/intermediate player, the songs aren't that hard to play or follow along. Would highly recommend this book.

Bible animals fan

Tab books from the Animals are very hard to find. This book has almost all their early songs [House of, Boom Boom, ect] It also has the tab to Sky Pilot, San Fran Nights and more. Great BFTB

Good collection of songs.

Love this particular collection of songs. These guitar tabs are good and easy to use. I was glad to find this sheet music with guitar chords listed, because it allows those of us who play guitars to play/sing these songs for our own enjoyment.

Really a great book of TAB, music notation, and chord charts for each song. Great to see this old music from the 60s is still available.

Good, clear chord tabs and transcribed music, accessible for beginners/intermediates.
