Series: Science of NASCAR

Paperback: 48 pages

Publisher: Lerner Classroom (September 1, 2007)

Language: English

ISBN-10: 0822590050

ISBN-13: 978-0822590057

Product Dimensions: 9.8 x 7.5 x 0.3 inches

Shipping Weight: 3.2 ounces

Average Customer Review: Be the first to review this item

Best Sellers Rank: #842,136 in Books (See Top 100 in Books) #44 in [Books > Children's](#)

[Books > Sports & Outdoors > Motor Sports](#)

Age Range: 9 and up

Grade Level: 4 and up

## Customer Reviews

The Science of NASCAR series capitalizes on a hugely popular sport to make science seem both interesting and relevant to life outside the classroom, even if it's a life that's in no way routine. The crisp, colorful photo collages in this volume (including many shots of contemporary NASCAR drivers) will plunge kids right into the text, which examines some forces that help drivers increase speed, pass one another more effectively, and otherwise better their car's overall performance. Some maneuvers, such as drafting (taking advantage of wind resistance), are further explained through uncomplicated experiments. A few driving-related math problems are scattered through the book as well. The vibrant background colors and multitude of sidebars, insets, and typefaces reflect trackside excitement, but they occasionally seem to overwhelm the words.

Nevertheless, this behind-the-scenes view of racing will attract lots of readers, who will come away with new facts about aerodynamics and automotive technology. Appended matter includes a few NASCAR Web sites and book suggestions; also recommend Marty Gitlin's Jeff Gordon. Grades 4-6. --Stephanie Zvirin --This text refers to an out of print or unavailable edition of this title.

Mark Stewart has written more than 100 sports books for kids. Stewart graduated from Duke University in Durham, North Carolina, with a degree in history. He lives with his wife and daughters in New Jersey. Mike Kennedy has contributed to more than 50 sports books for kids. He received an English degree from Franklin & Marshall College in Lancaster, Pennsylvania. Born in New Jersey, he lives in Colorado. --This text refers to an out of print or unavailable edition of this title.
